

Come now. You can't keep leftover roasted mango-glazed chicken and handmade vanilla bean ice cream in just any refrigerator or freezer.

36" Counter-Depth Refrigerator/Freezer

For a true built-in look, Siemens offers a 36" wide by 24" deep (case) refrigerator/freezer with a hidden hinge design. Inside, Siemens quickCool™ and quickFreeze™ technologies temporarily maximize cooling when hot food is first placed in the unit.

36" French Three-Door Refrigerator/Freezer

One key to being a good chef is to be able to lay your hands on the garlic or mayonnaise or cream the moment you need it. The Siemens three-door is a model of organization. It features a motorized shelf that you can adjust even when it's loaded with leftovers.

24" Refrigerator Tower

This independent column can be placed wherever it's most convenient. It features the latest Siemens technology, including coolFlow™ and quickCool™ to keep things fresh.

18" Freezer Tower with Dispenser

The latest Siemens technology includes quickFreeze™, an anti-clump ice system and a filtered ice and water dispenser.

18" Wine Tower with Dual Climate Control

The optimal storage temperature for white wines is 40° – 52°F. For red, it's 52° – 60°F. The dual climate controls keep 70 vintages at the perfect temperature in each zone.

German Engineering

Professional style and durability. Siemens is Europe's number one built-in appliance brand.

avantGarde® Refrigerators, Freezers and Wine Tower

The future moving in.
