

Dishwashers

Sleek, flush European styling with a design for everyone.

Bosch designers believe that form must always be balanced with function. Whether it's a new way to load your silverware and bulky items, or a seamless look with cabinets through our ultra-flush installation, our commitment to purposeful design is clear.

Our German-engineered dishwashers incorporate 18 unique sound reducing technologies, making Bosch the quietest dishwasher brand in the U.S.* with every quiet level certified by an independent lab. With our innovative third rack, your cutlery, whisks, tongs, and other odd utensils have a place all their own, allowing for 30% more loading area.**

*Based on an average of sound ratings of 24" Full Size Stainless Steel Tub dishwashers contained in major brands websites. Major brands defined as TraQline Top 5 Market Share brands, March 2014. **Compared to a Bosch dishwasher with two racks.

For a number of years, the Good Housekeeping Seal of Approval has been reassuring consumers that they've made a great choice. Which is why we're proud that all Bosch dishwashers are backed by the Seal and Good Housekeeping's two-year limited warranty.

Benchmark™ Dishwashers

A place for everything,
and everything in its well-designed place.

Quietest Brand

The number one feature homeowners look for in a dishwasher is quietness, and our ingenious German engineering makes Bosch the quietest dishwasher brand in the U.S.* In fact, our dishwashers are so quiet, we've added an InfoLight® or TimeLight® to let you know a cycle is running.

Three Racks of Flexible Loading Space

Expandable wings on our flexible third rack provide extra room for ramekins, measuring cups and extra-large utensils. Adjustable tines lower to fit awkward, bulky items while our third rack's unique v-shape accommodates the loading of extra tall stemware in the middle rack.

Flush and Easy Installation

Our full size tub can be installed perfectly flush to cabinetry. And, new Bosch dishwashers come with a pre-connected heavy-duty braided water inlet hose, as well as a power cord with attached junction box for easy installation.

Most Awarded Dishwasher Brand Worldwide

Bosch dishwashers have won more awards than any other dishwasher brand.**

*Based on an average of sound ratings of 24" Full Size Stainless Steel Tub dishwashers contained in major brands websites. Major brands defined as TraQline Top 5 Market Share brands, March 2014. **According to the 2013 worldwide count of "best in test" ratings from comparative dishwasher tests.

Dimensions and Cutout

measurements in inches (mm)

Custom Panel - Dimensions and Cutout

* measured from the bottom edge of the countertop panel thickness recommended 3/4" (20 mm).

This dishwasher can accept custom door panel weights ranging from 7 to 24 lbs; however, the dishwasher comes from the factory ready for custom panel door weights from 11 to 18 lbs.

If you plan on using a door panel that is not 11 to 18 lbs. please contact customer service at (800) 944-2904.

** 24" (610 mm) wide panel may be used depending on cabinet design

Note: Refer to installation template for mounting hardware locations
measurements in inches (mm)

Example of Hardwire Installation

Note: Cutout required on left or right cabinet wall, depending on location of water inlet, drain and electrical connection

Power cord with junction box included

Example of Electrical Receptacle Installation

Note: Cutout required on left or right cabinet wall, depending on location of water inlet, drain and electrical connection

Accessory power cord for receptacle connection SMZPC002UC (not included).

Water and Electrical Locations

All connections are at the rear of the appliance.
Extension for drain hose available as accessory.
Power cord for connection to electrical outlet (3-prong plug) available as accessory.

Plumbing

Note: Plumbing installations will vary - refer to local codes.
Drain hose included is 79 (201 cm) and can be extended to a maximum of 155 3/4" (396 cm).

Always use the approved drain hose extension kit (SGZ1010UC).

Ensure a portion of the drain hose is raised between min. 20" (50 cm) and max. 43" (110 cm) above the cabinet floor.
