Dryer Specs - Energy Input

Electric	N/A
Gas	22,500 Btu

Due to continuous product improvements, design and specifications subject to change without notice. The quality management systems at all Alliance Laundry Systems manufacturing facilities are registered as ISO9001:2000 compliant.

Electronic Touch Pad

LED displays price and time remaining in cycle. Customers will appreciate knowing the status of their laundry and it's easy for the store owner to program the vend price.

Stacked Washer/Dryer STGX79 Features:

- Designed as vertical combination with the same capacity of the frontload washer and dryer
- The stacked unit takes up half the floor space of a conventional washer and dryer
- The stacked unit has the same hook-ups and connections as a standard washer and dryer
- Having a window in the washer and dryer enables customers to view the entire laundering process
- See washer and dryer descriptions for additional product features
