

Keystone / KSTAD354E

35 Pints Dehumidifier, The ENERGY STAR Most Efficient (old DOE 50P)

Removes 35 pints of moisture per day: The Keystone 35-pint humidifier works to remove up to 35 pints of moisture from the air per day, creating a healthier indoor environment. Ideal for spaces up to 3,000 square feet, the unit is an excellent addition to bathrooms, bedrooms, attics, garages, and more. Reduces health complications caused by household allergens: By removing mold and mildew from your indoor space, the Keystone 35-pint dehumidifier combats household allergens that cause health complications. And for with asthma, the unit creates a safer and more comfortable space by minimizing damp, moist air. Designed with electronic controls: Equipped with an LED display, a 24-hour timer, a transparent water level indicator, and a full bucket alert with automatic shutoff, the Keystone 35-pint does the work for you. With custom settings, you'll enjoy the convenience of a unit tailored to your space and preferences. Settings include normal, turbo, and auto-defrost. Continuous drainage option available: Using a low-level drain and standard garden hose, simply attach the hose to the unit for continuous drainage, with no emptying required. Removable dust filter: As a sustainable solution for removing moisture, the Keystone 35-pint comes with a removeable, washable filter for your convenience. Auto-restart function: Designed with an auto-restart function, the unit saves your settings following a power outage, continuing your previous settings after power is restored. Simple transport from room to room: With four, easy-roll casters for quick and efficient transport throughout your home, you'll have no trouble moving your unit to different locations as the seasons change. And with minimal noise, you'll enjoy Keystone's efficient moisture removal without disruption to your daily life.

- Room dehumidifier removes up to 35 pints of moisture from the air per day
