- RF Control™
- Convenient Long Reach Cord (40 Ft.)
- LG's Upright Vertical Cyclone System
- Lifetime HEPA Filter
- Pet Hair Turbine Tool
- Accessory Pack
- LED Headlight
- AAFA Certification

THE ULTIMATE CLEANING MACHINE

Stylish and packed with innovations, the LG KOMPRESSOR Vacuum is more than a simple vacuum. The KOMPRESSOR technology allows you to pick up 3 times more dirt before emptying it. And with DualForce+ suction stubborn debris are not so stubborn anymore. But the attention to detail comes to life in features such as the LED Headlights, and in vacuum tools specially developed to clean mattresses, hardwood and tight spaces. As you can see, it's not only a vacuum. It's an unstoppable cleaning machine.

KOMPRESSOR® System

Goodbye messy vacuum bags. The KOMPRESSOR® system uses a unique wiper blade within the bagless bin to keep it clean while compressing dust intake. That allows you to store up to 3 times more dust vs. non-compressor models, and means there's an easy-to-dispose-of cake of dust when you empty it.

DualForce+™ Suction

DualForce+™ suction uses an enhanced motor and two additional air pathways to pick up dirt from both sides, in addition to the traditional center section. This allows you to capture dust and debris over a wide surface area, and is ideal for picking up dust in hard-to-reach edges.

Click 'N Go™ Wand

Hard-to-reach spots just got easy. The Click 'N Go™ Wand detaches from the base – providing up to 15 feet of additional reach – for easier cleaning of stairs, upholstery, and other out-of-the-way spots.
