

Texan Electric Grill

The Texan Electric Grill is a built-in, double-burner grill. With two 1500-watt elements, this powerful electric grill offers a safe alternative in situations where gas and charcoal grills may not be suitable, such as apartments, backyards, and various other applications. The Texan Grill provides a variety of styling options, including control and lid types, making it a versatile solution for any situation. It can exceed temperatures of 550°F, is virtually smokeless, and eliminates the risk of flare-ups. The marine-grade stainless steel construction makes this grill the perfect option for use on balconies and rooftops nationwide.

Stainless steel is backed by a lifetime rust-free guarantee

Certified to UL-1026

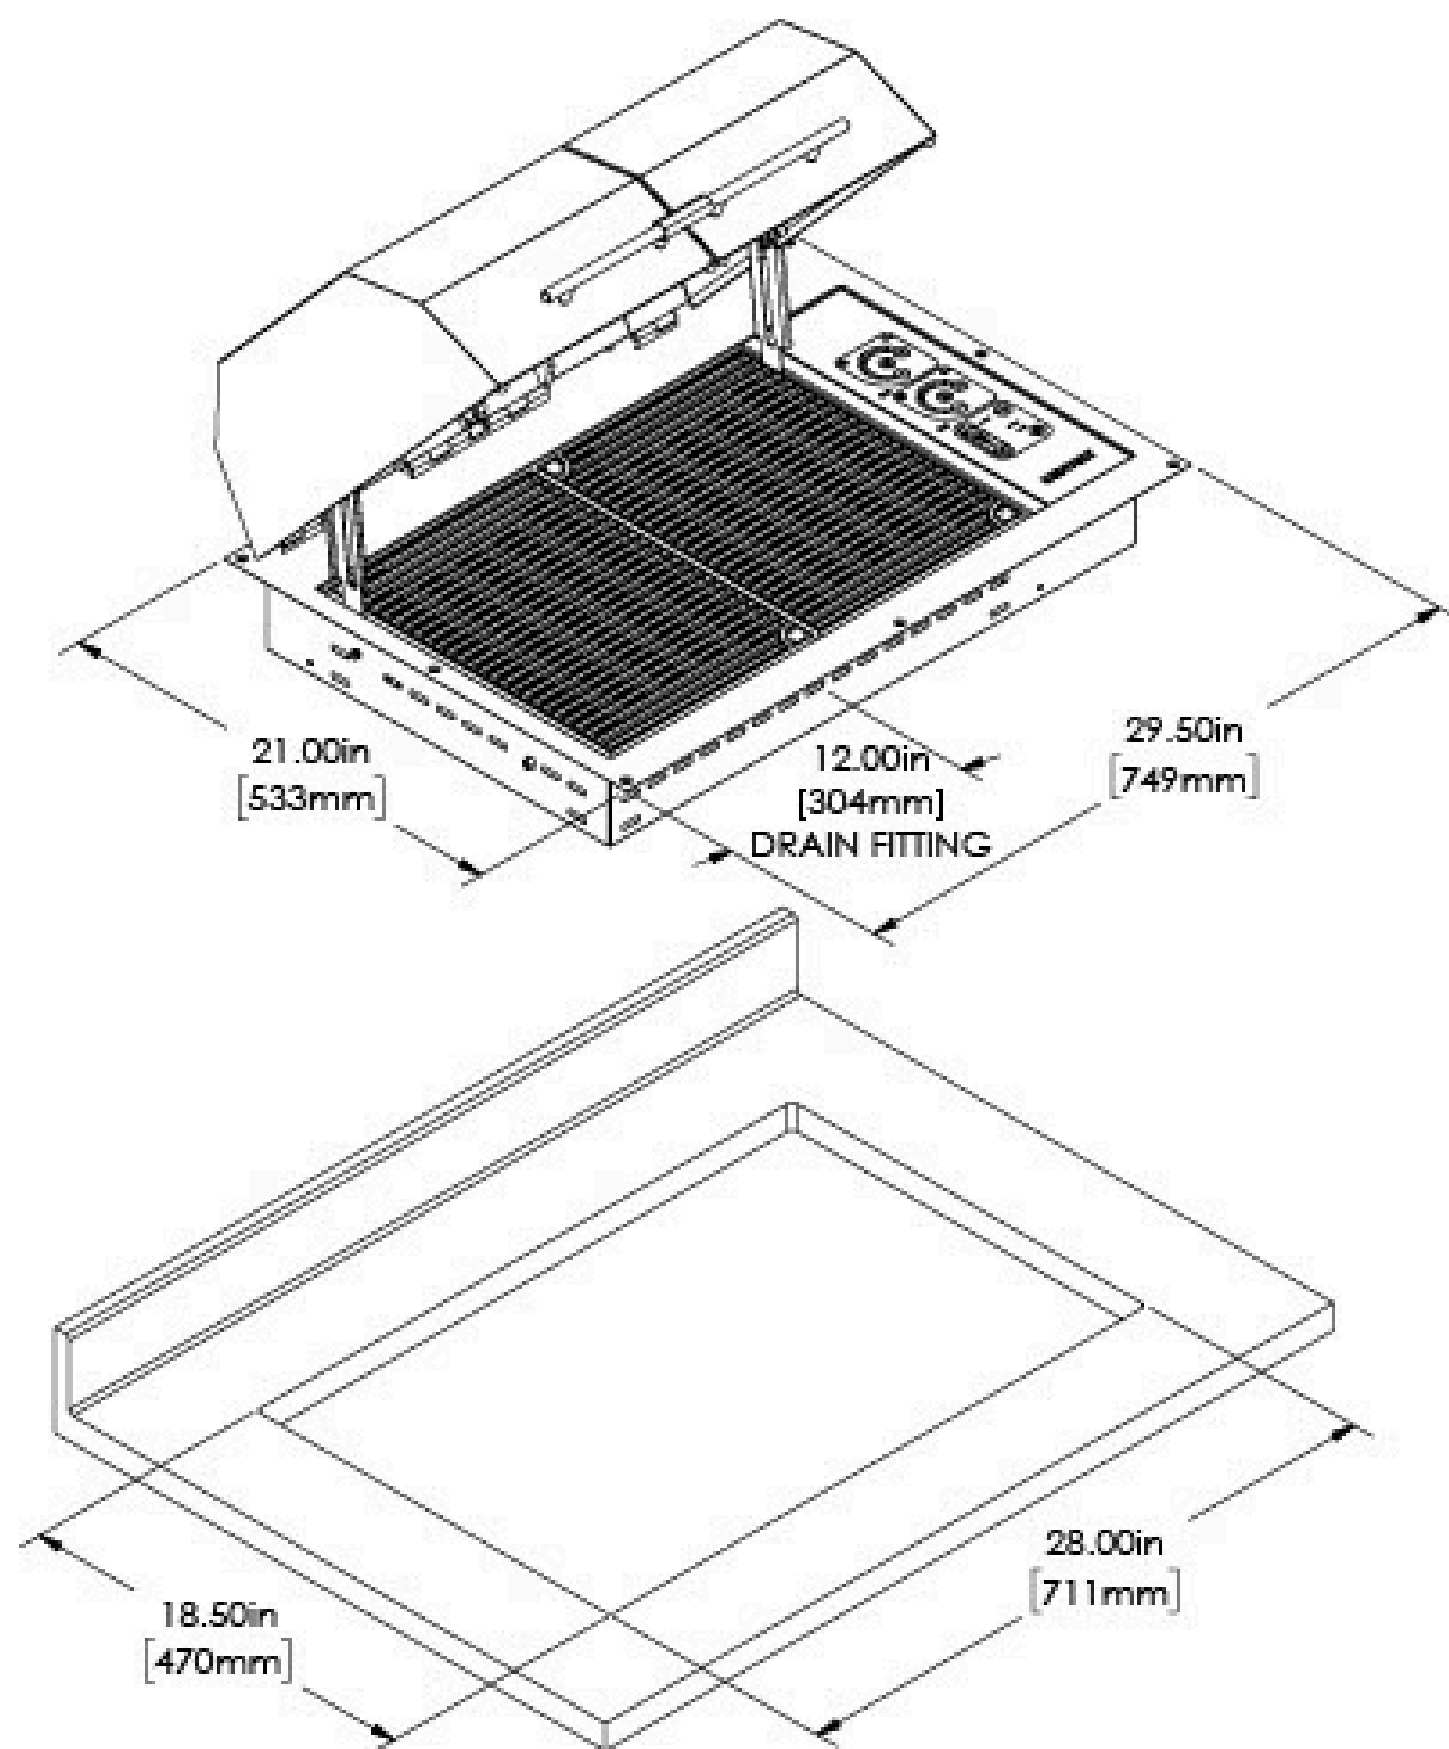

Kenyon backs every grill with a 3-year product replacement warranty
