SIGNATURE FEATURES

Deep Steam Cycle and SteamCare™ option

Delivers more powerful cleaning results by loosening soils and dirt. SteamCare™ option provides steam cleaning power to 7 traditional cycles.

Samsung's Vibration Reduction Technology (VRT™)

Allows installation on second floors or near bedrooms because it provides smooth operation at spin speeds up to 1100 revolutions per minute, significantly reducing vibration and noise while improving handling of unbalanced loads.

Self-cleaning washer for the ultimate clean

PureCycle™ washers have a special cleaning cycle that runs hot water (rather than harsh chemicals) through the spinning drum, to remove dirt and detergent residue. Now your washer, and your clothes, will truly stay clean and fresh.

ENERGY STAR®-certified to save power and money

ENERGY STAR® certification means this model helps the environment by using less energy, which means less money you spend on electricity. ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy promoting energy efficiency.

Peace of mind with NSF®-certified sanitization cycle

Samsung's NFS®-certified washers eliminate 99.9% of household bacteria from laundry.
