A WASHER THAT LETS YOU HAVE IT ALL

A powerful steam clean, ultra-large capacity, and gentle on fabrics sound too good to be true in a single washer? Not anymore. This 4.3 cu. ft. ultra-large capacity washer uses TrueSteam™ technology with powerful steam that penetrates into your clothing, while still being gentle on even your most delicate fabrics. And with 6 advanced wash motions, you will get revolutionary cleaning everytime. You've waited long enough...finally, you can have it all!

True Steam™ TrueSteam™ Technology
TrueSteam™ technology gently but powerfully penetrates fabrics. In fact, LG uses a real steam generator to drive hotter, smaller particles of steam, for our most advanced cleaning ever.

COLDWASH™ ColdWash™ Option
Now using the cold cycle on your washer doesn't mean compromising how clean your clothes are. New ColdWash™ technology uses cold water and enhanced washing motions to penetrate deep into fabrics, giving you cold water savings with warm water performance.

6 MOTION™ 6Motion™ Technology
Get your clothes clean and experience a smarter way to wash with our innovative 6Motion™ technology. Each wash cycle combines up to 6 different wash motions to provide a revolutionary cleaning experience.
