

24 INCH FRONT LOAD WASHER

WM98400SX

Compact Washer & Dryer

Blomberg knows an upscale urban lifestyle often puts space at a premium, but that doesn't mean sacrificing style or superior performance. Our 24-inch compact washers and dryers fit in perfectly, offering flexibility and freedom in installation (including an optional stacking kit), plus all the functionality and finesse required for expert clothing care. Despite their compact size, these washers deftly handle 2.5 cu. ft. of laundry while the dryers dry 4.1 cu. ft. loads—both with a variety of cycles for different fabrics.

In Harmony with Nature

Commitment to living consciously should extend to clothing care, so Blomberg brings intelligent energy and water conservation to the laundry room. All our washers are ENERGY STAR® certified and offer automatic water adjustment for each load. The same is true for all our dryers, including Blomberg's best-in-class Heat Pump Dryer which made the 2017 ENERGY STAR Most Efficient list for using 50% less energy than conventional dryers. Thoughtful design and engineering is what earned Blomberg the ENERGY STAR® 2017 Partner of the Year Award.

All Blomberg washers are ENERGY STAR® certified for conserving energy and water. Each machine features an automatic water adjustment system that calculates the volume of laundry, so every load uses only the amount of water required to spotlessly clean and thoroughly rinse—not a drop more—and you can wash a small load as economically as a large one.

In Harmony with Your Life

Special Wash Cycle Programs

Designed to be in perfect harmony with your life, Blomberg washers offer up to 16 special washing programs that automatically adjust to specific laundry situations or different textiles from delicate lingerie to heavy-duty work clothes. The result is consistently clean, fresh, well cared for clothing and linens with little effort and no guesswork on your part.

Super Quick 20: When time is of the essence, Blomberg offers a super-fast cleaning cycle for small loads of lightly soiled or unstained clothes or items you've only worn once.

Jogging Wear: Exercise this option for frequently washing and refreshing your daily workout clothes. It's ideal for small loads and works equally well on sportswear made from cotton, synthetics, or blends.

Bedding: For large families with lots of bed linens to change and towels to wash, Blomberg's 24-pound capacity washers perform beautifully and efficiently. Just set the special program and wash up to five sets of double sheets or 14 plush towels in a single load.

Jeans: Specially designed to gently but thoroughly launder thicker fabrics, this special program automatically adjusts to a higher water level and adds an extra rinse cycle. Garments come out spotless with no remaining traces of detergent.

24 INCH FRONT LOAD WASHER

WM98400SX

Main Features

- Compact front load washer
- ENERGY STAR certified
- Maximum water efficiency
- 1400 rpm maximum spin speed
- 16 Washing programs
- Special washing programs
 - Pet hair removal
 - Super quick 20
 - Bedding program
 - Jogging Wear
 - Jeans cycle
- Special washing functions
 - Heavy Soil
 - Extra rinse
 - Soak
- Electronic Controls
- Liquid detergent compartment
- 2.5 cu. ft. washer capacity
- Woolmark Apparel Care certified wool cycle
- OptiSense sensors
- Rinse sensor
- Internal water heater
- Child Lock
- Chrome door rim
- Lifetime stainless steel drum
