

Liebherr / WU-4500

24" Under-counter Wine Cabinet 46 Bottle 1 Zone

The Liebherr WU-4500 24-In. Grand Cru Wine Cabinet with One Temperature Zone is ideal for storing wines for long periods of time allowing them to mature to perfection. Depending on what temperature the appliance is set at, it can also be used for keeping white or red wine at exactly the right temperature for serving. The WU 4500 is the smart under counter solution that allows you to store at a temperature level between +41 degrees Fahrenheit and +68 degrees Fahrenheit. A specially developed compressor ensures that the wines are stored vibration-free. Since the wine cabinet ventilates through the toe kick, no counter slots are necessary and the cabinet can be integrated easily and elegantly into your kitchen. This unit also boasts a digital temperature display conveniently located at the top.
