

KITCHEN VENTILATION SYSTEMS

Insert

XO13315SMUA make-up air compliant series

The XO1 insert is an integrated blower which allows you to match your custom hood to your kitchen. This simple and affordable design is easy to install. Designed and crafted in Italy for the ultimate in fit and finish. At XO we believe that good design is something everyone can afford.

What does Make-Up Air Compliant mean?

For the last several years, codes and standards required Make-Up air for domestic range hoods with exhaust rates exceeding a certain limit. The International Residential Code Section M1503.4 and the International Mechanical Code Section 505.2 require Make-Up air for all domestic range hoods in excess of 400 cfm. State, county and local codes may be more restrictive. Always check with your jurisdiction for specific Make-Up air requirements in your area.
