

## XS 200 – Design & Lifestyle

### 17" Humidor

Liebherr's approach to refrigeration in their entire product line is to provide ideal conditions for food - fresh and frozen, and for wine. The approach to designing the new Liebherr Humidor is no exception. The Innovative Magic Eye control system allows precise control to establish the proper balance of temperature and humidity so important to the optimal storage for fine cigars.

The storage cabinet can be set from **60 °F to 68 °F** and the humidity, controlled by a removable container for distilled water, can be set from **68% to 75%** humidity depending on owner preferences.

**Humidity Shelf**

**Presentation Box**

<b>Temperature zones</b>	1
