ZLINE RANGES

ZLINE burners and hinges are handcrafted in Italy and are of the highest quality on the market. The solid piece, porcelain-enamel cook top is a breeze to clean and smooth to the touch. Oven doors feature Italian imported hinges with a weighted action, ensuring a fluid and stable, premium feel. The oven doors feature three layers of glass, increasing efficiency and keeping your kitchen cool while your oven stays hot. These are just a few of the features that separate ZLINE from the competition.

MICROWAVE DRAWER

An innovative design sets this microwave drawer apart from the competition. No need for a turntable as the magnetron is located in the microwave's roof, as opposed to one of the side walls, like traditional microwaves. A low profile, modern design compliments other appliances, giving your kitchen a contemporary aesthetic.

PANEL-READY DISHWASHER

With a stainless steel interior, the top control panel is only visible when the dishwasher door is open. Offering a sleek look that doesn't take away from the custom panel, ZLINE dishwashers set the tone for your kitchen.

From Heavy to ECO settings, ZLINE Dishwashers can withstand cleaning everything from heavily soiled pots to delicate wine glasses. Our dishwashers are Energy Star rated, meaning the less water you'll use, the more money you'll save.

WALL RANGE HOODS

As the industry leader in range hoods, ZLINE is the first in the industry to develop a proprietary seven layer copper finish and the only range hood manufacturer to offer a lifetime warranty on the motor. Visually stunning, powerful and quiet, ZLINE range hoods are suited for every kitchen and style.

WALL RANGE HOODS

SEAMLESS CHIMNEYS

At ZLINE Kitchen and Bath, our goal is to deliver a tailored look without the price tag of a custom hood. Custom-cut, solid wood chimneys give your kitchen a high-end aesthetic no matter your ceiling height. ZLINE Wooden Range Hoods look like they are made just for your kitchen.

AN INDUSTRY FIRST LIFETIME WARRANTY

What's inside the range hood matters just as much as what's on the outside. ZLINE motors are powerful yet quiet, with a steel on steel construction and unique centrifugal design. This high quality motor, coupled with its Lifetime Warranty, is an industry first. ZLINE's goal is to provide a custom looking range hood that arrives ready to plug in.

CROWN MOLDING

ZLINE's wide variety of crown moldings are unique to the industry and give your range hood a designer-finished look. Crown moldings come in many shapes and sizes, leaving a world of options at your disposal.

Stainless steel, copper finish, or handcrafted wood - no matter which style of range hood you have, there is a crown molding available.

Crown moldings can serve both a design and a utilitarian purpose. Did your custom cut chimney come out less than perfect? A ZLINE crown molding will mask any slight imperfections, ensuring the high-end, finished look.

PROFESSIONAL RANGE

A kitchen can get extremely hot while cooking. The right range hood will improve the efficiency of your ventilation system, removing odors and heat that naturally come with cooking. With a ZLINE range hood you'll have a

NATURALLY QUIET

cleaner, cooler, better smelling kitchen. ZLINE offers a wide variety of motors, ranging from 230-1200CFM (cubic feet per minute). In living spaces that require makeup air, a lower power motor between 230-400CFM is optimal. If makeup air isn't in your vocabulary, a higher power motor from 760-1200CFM is ideal. ZLINE's 400CFM range

**304-GRADE
STAINLESS STEEL**

SNOW STAINLESS STEEL

**STANDARD BRUSHED

BLACK STAINLESS STEEL

hoods maintain the elegant design and superior performances, while offering a lower-power, quieter option. ZLINE Range Hoods will let your dinner conversations continue as you maintain a clean and quiet kitchen. Four fan speed settings let you choose the perfect air flow for any cooking setting, and with the newly introduced 400CFM series, your kitchen will be even more quiet and energy efficient.

ZLINE motors come in a wide range of options, from 900 to 1200CFM. Exceptionally low decibel levels ensure a quiet kitchen, despite a powerful motor. Heat and particulates in the air will be removed from your home with ease and

EFFICIENCY.

Dishwasher-safe baffle filters capture grease and smoke from cooking for an easy clean up. For those who don't have the time to clean them by hand, running them through the dishwasher is a surefire way to have them looking like new. These are filters you won't ever have to change.

COPPER FOR EVERY KITCHEN

The ZLINE Professional 655 series offers a dozen styles that will compliment any kitchen's aesthetic. With the capacity to move up to 1,200 cubic feet of air per minute (almost 9,000 gallons every minute, for comparison) these range hoods push out particulate matter in no time. With smoke and heat moved out of the kitchen, the culinary workspace is now far more comfortable to cook in and healthier.

ZLINE's Designer Copper hoods are entirely unique. Constructed from 304-grade stainless steel, with a proprietary 7-layer, hand-rubbed copper finish, these hoods will never rust or tarnish. This high-quality construction is designed for indoor and outdoor use. All ZLINE range hoods come equipped with everything needed to install and use, including the motor; all at a competitive price point. We understand that whatever the project, big or small, remodel or new home, there are many factors to consider. ZLINE takes the guesswork out of your range hood install - everything is pre-installed, from the stainless steel filters to the professional motor. All you need to do is plug it in.

ENDURING OUTDOOR LIFESTYLES

With the rise of fully functional outdoor kitchens, ZLINE has perfected the outdoor-approved range hood. ZLINE's 304-grade stainless steel is tested and approved to withstand the elements. All copper range hoods are sealed with a proprietary 7-layer finish. Where genuine copper is sensitive to oxidizing, ZLINE's copper finish hoods will never tarnish or rust. Wall, Island, Under Cabinet, Insert - with so many options at your disposal, there's no reason your outdoor kitchen shouldn't feel complete.

655-CSSSS
COPPER ISLAND HOOD

ZLINE Kitchen and Bath was founded by Andy Zuro and has a headquarters in Nevada with offices in Ohio and Tennessee. All of our products are designed and shipped from the United States with materials carefully sourced from all over the world, from Italy to Eastern Asia.
