Professional style grilling with touch control ease.

The days of lugging heavy bags of charcoal or tanks of gas to enjoy grilled food are gone. The Kenyon Custom Texan Electric Grill provides a safe method of grilling without the hazard of open flames associated with propane gas or charcoal grills. Simply touch the On/Off circle and then raise or lower the heat setting by pressing the + or - graphic on the sealed moisture proof ceramic glass panel. Within minutes, you're on your way to a remarkable grilling experience.

Two grilling surfaces with independent heat control allows you to sear steaks on one side while gently grilling vegetables on the other. When the need arises to use a flat surface simply change-out one of the grates with the optional griddle. The vast array of crepes, eggs, grilled sandwiches or any number of other specialty items is now at your command.
