Planning notes

Door hinge not reversible.
 The front of the appliance extends 1 7/8" from the cabinet front.
 When handle (optional) is installed, the outer edge of the door handle extends 3 1/4" from the cabinet front.
 Consider the overhang, incl. the door handle, when planning to open drawers next to the appliance.
 Plan a gap of at least 3/16" between the appliance and adjacent cabinets.

When planning a corner solution, pay attention to the 90° door opening angle.

To achieve the 21 5/8" installation depth, the connecting cable needs to follow the slanted edge on the lower right hand corner of the housing. The plug needs to be planned outside of the cut-out niche.

Please read the installation details regarding air openings on pages 6-7 of the Gaggenau Models & Dimensions book.

Rating

Total rating: 5.52 kW.
 Total Amps: 25 A.
 208/220-240V / 60Hz
 Plan for a 5' connecting cable (hardwire required).

* 8" (200) is minimum distance requirement in order to use pull-out system BA 018 103 and when installed with handle.
