KITCHEN FAUCETS 2015

Crespo™ Series Kitchen Faucets

KRAUS INTRODUCES NEW DIY FAUCETS WITH VERSATILE STYLE

An instant update for any kitchen

8/2015 • Port Washington, NY

We're launching two new series of easy-to-install faucets, for a number of new ways to give your kitchen a quick modern makeover.

Our new DIY faucets are designed to be at home in any kitchen, with a choice of flawless finishes for easy matching. Faucets from the Crespo™ Series have soft curves and gently flared bases, for a refined transitional look. Slim black handles and matching insets add a modern edge. Mateo™ Series faucets feature sturdier, streamlined shapes, with industrial styling for maximum visual impact. Both series include a bar/prep model that complements the primary faucet design. Each series also includes a restaurant-inspired commercial-style model, for a professional look in the home kitchen.

All Kraus DIY faucets are built with QuickDock technology, for exceptionally easy topmount installation. This innovative feature eliminates the need to secure parts underneath the sink, and allows you to install the faucet in a matter of minutes. Top-quality components ensure lasting performance and durability. Technology highlights include drip-free Kerox ceramic cartridges and best-in-industry Neoperl aerators.

The new Kraus DIY Series provide an instant update to modern style. Build a better kitchen with Crespo™ and Mateo™, and experience Kraus Quality at its best.

About Kraus USA: Headquartered in NY, with distribution facilities worldwide, Kraus USA has been operating for over 10 years with one simple mission: To bring the best to our customers, exceeding expectations when it comes to quality, style, and value. With Kraus, you get more for your money than just beautiful and durable kitchen & bath fixtures. You get a reliable, consumer-focused experience, from selection to installation, to care & maintenance, and beyond. Learn more about us at www.kraususa.com

Crespo™ Series

Give your kitchen décor a quick modern makeover with new easy-to-install DIY faucets from the Crespo™ Series by Kraus. This series features faucets with smooth curves and gently flared bases, for a refined transitional look. Slim black handles and matching insets give the streamlined designs a modern edge, and provide a simple way to coordinate with any material, from granite to stainless steel. Featured models include a restaurant-inspired commercial-style faucet, as well as a bar/prep faucet that complements the primary faucet design.

All Kraus DIY faucets are designed with QuickDock technology, for exceptionally easy top mount installation. This innovative feature allows you to install the faucet from above the counter, eliminating the need to secure it underneath the sink. Top-quality components ensure lasting value and superior performance; technology highlights include durable, drip-free Kerox ceramic cartridges and best-in-industry Neoperl aerators.

Build a better kitchen with the Crespo™ Series, and experience Kraus Quality at its best.
