IMPORTANT—Please Read and Follow

 Before beginning, please read these instructions completely and carefully.

Your safety and the safety of others is very important.

We have provided many important safety messages in this manual and on your appliance. **ALWAYS** read and obey all safety messages.

This is the safety alert symbol. This symbol alerts you to hazards that can kill or hurt you and others.

All safety messages will be preceded by the safety alert symbol and the word "DANGER," "WARNING" or "CAUTION." These words mean:

▲ DANGER

Hazards or unsafe practices which WILL result in severe personal injury or death

A WARNING

Hazards or unsafe practices which COULD result in severe personal injury or death

A CAUTION

Hazards or unsafe practices which COULD result in minor personal injury or property damage.

All safety messages will identify the hazard, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

- DO NOT remove permanently affixed labels, warnings, or plates from product. This may void the warranty.
- All local and national codes and ordinances must be observed. Installation must conform with local codes.

 The installer must leave these instructions with the consumer who should retain for local inspector's use and for future reference.

In Canada: Installation must be in accordance with the current CSA C22.1 Canadian Electrical Codes Part 1 and/or local codes.

A DANGER

ELECTRICAL SHOCK HAZARD

To avoid risk of electrical shock, personal injury or death; verify your appliance has been properly grounded in accordance with local codes or in absence of codes, with the National Electrical Code (NEC). ANSI/NFPA 70-latest edition.

A WARNING

MOVING HAZARD

To avoid risk of severe personal injury; this appliance requires two or more personnel while handling and moving. Possible use of appliance moving devices is recommended.

Minimum clearances from adjacent combustible construction

- Cooking surface and below, i.e., 36" (91.4 cm) and below
- o Sides—0
- o Rear—0" with backguard or highshelf; 0" with island trim and non-combustible rear wall; 6" (15.2 cm) with island trim and combustible rear wall.
- Above cooking surface, i.e. above 36" (91.4 cm)
- o Sides—6" (15.2 cm)
- o Within 6" (15.2 cm) side clearance, wall cabinets no deeper than 13" (33.0 cm) must be minimum 18" (45.7 cm) above cooking surface.
- o Wall cabinets directly above product must be minimum 36" (91.4 cm) for open top burners above cooking surface.

Note: Unit shown with 6" (15.2 cm) backguard.

Clearance Dimensions (Proximity to Cabinets)

 This rangetop may be installed directly adjacent to existing 36" (91.4 cm) high base cabinets.

IMPORTANT: The top grate support MUST be 3/8" (.95 cm) above the adjacent base cabinet countertop.

- The rangetop CANNOT be installed directly adjacent to sidewalls, tall cabinets, tall appliances, or other side vertical surfaces above 36" (91.4 cm) high. There must be a minimum of 6" (15.2 cm) side clearance from the rangetop to such combustible surfaces above the 36" (91.4 cm) counter height.
- Within the 6" (15.2 cm) side clearance to combustible vertical surfaces above 36" (91.4 cm), the maximum wall cabinet depth must be 13" (33.0 cm) and wall cabinets within this 6" (15.2 cm) side clearance must be 18" (45.7 cm) above the 36" (91.4 cm) high countertop.
- Wall cabinets above the rangetop must be a minimum of 42" (106.7 cm) above the rangetop cooking surface for the full width of the rangetop. This minimum height requirement does not apply if a range hood is installed over the cooking surface.

A CAUTION

WZ !

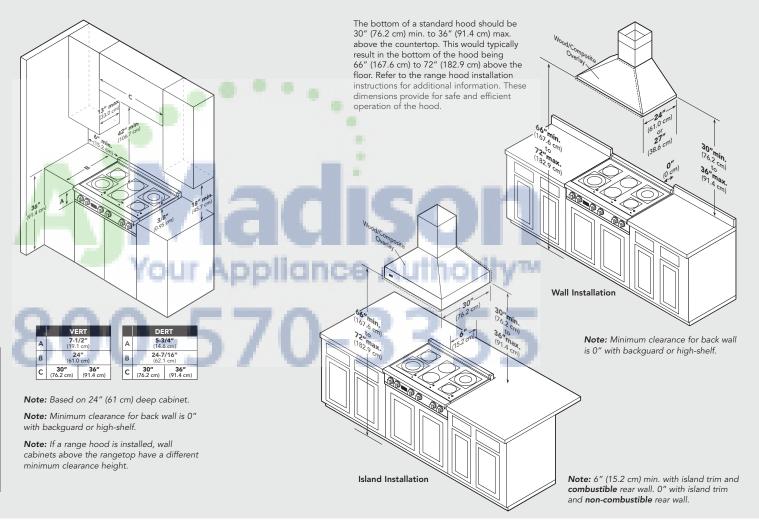

BURN HAZARD To avoid risk of personal injury;

the use of cabinets for storage above the appliance may result

8

in a potential burn hazard. Combustible items may ignite, metallic items may become hot and cause burns. If a cabinet storage is to be provided the risk can be reduced by installing a rangehood that projects horizontally a minimum 5" (12.7 cm) beyond the bottom of cabinets.

Clearance Dimensions (Wood/Composite Overlay)

Electrical Requirements

Electrical Requirements

VERT

Check your national and local codes regarding this unit. This rangetop requires 3-wire, 240-208 VAC/60 Hz. See "Installation" section for grounding instructions. Must be fused seperately from any other circuit.

Cutout for electrical

5" (12.7 cm)

▲ WARNING

To avoid the risk of electrical

shock, personal injury or death; verify electrical power is turned off at the breaker box until the rangetop is installed and ready to operate, installation by an authorized installer only.

General Information

READ AND FOLLOW ALL WARNING AND CAUTION INFORMATION WHEN INSTALLING THIS APPLIANCE.

- All openings in the wall behind the appliance and in the floor under the appliance must be sealed.
- **DO NOT** obstruct the flow of combustion and ventilation air.

Moving, Handling, and Unpacking

Remove and discard all packing materials, including cardboard and tape on the outside of the rangetop.

Some stainless steel parts may have a plastic protective wrap which must be peeled off. All stainless steel body parts should be washed with hot, soapy water and with a liquid cleaner designed for this material. If buildup occurs, DO NOT use steel wool,

abrasive cloths, cleaners, or powders.

Installation

Note: Refer to rangetop electrical requirements section for proper installation information.

Connect electrical in shaded area. See the "Electrical Requirements" section for more information.

Final Preparation

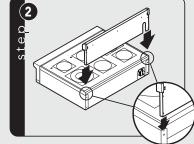

All stainless steel body parts should be wiped with hot, soapy water and with a liquid cleaner designed for this material. If buildup occurs, DO NOT use steel wool, abrasive cloths, cleansers, or powders. If it is necessary to scrape stainless steel to remove encrusted materials, soak with hot, wet cloths to loosen the material, then use a wool or nylon scraper. DO NOT use a metal knife, spatula, or any other material tool to scrape stainless steel! Scratches are almost impossible to remove.

Performance Checklist

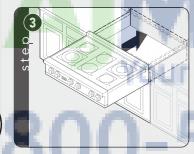

A qualified installer should carry out the following checks:

Check hot surface indicator lights—glow red when corresponding element is on.

Install island trim. Attach with four screws provided.

Slide rangetop into place

70-3355

Service & Registration Notes Only authorized replacement parts may be used in performing service on the appliance. All servicing should be referred to a qualified technician. Contact Viking Range Corporation, 1-888-VIKING1 (845-4641), for the nearest service parts distributor in your area or write to: VIKING RANGE CORPORATION PREFERRED SERVICE 1803 Hwy 82W Greenwood, Mississippi 38930 USA Rangetop - The serial number and model number for your appliance can be found by looking under the control panel. Record the following information indicated below. You will need it if service is ever required. Model number Serial number Date of purchase Date installed Dealer's name Address These installation instructions should remain with the unit for future reference.
