23 cu. ft. French Door with

External Water & Ice Dispenser plus Dual Ice Maker

SAMSUNG

Twin Cooling Plus System®:

Delivers superior food preservation results usually only found in advanced commercial-grade cooling systems. Twin Cooling Plus System®, the next generation of Twin Cooling® technology, uses two evaporators with only one compressor to independently control temperature in the refrigerator and freezer compartments maintaining optimal humidity levels and preventing odor transfers between compartments.

Surround Air Flow:

Surround Air Flow provides even cooling throughout the refrigerator to maintain optimal temperatures to keep food fresh.

Power Freeze and Power Cool Options:

Power Freeze and Power Cool Options can be used when foods need to be brought down to a lower temperature quickly or when the temperature inside the refrigerator or freezer compartments needs to be cooled due to repeated door openings.

Cool Select Pantry™:

Cool Select Pantry™ provides additional temperature control for your food storage needs with Quick Cool, Thaw and Soft Freeze, Chill Mode, and Cool Mode options.

External Digital Display and Control:

Controlling the refrigerator is easy with the external digital display. It shows the inside temperatures, when to change your filter and also controls the ice and water dispenser.

Water Filter:

Samsung's water dispenser provides filtered water without sacrificing your interior space. Ice cubes are conveniently located in the freezer.

Door Alarm:

Prevents food spoilage by alerting you if the freezer or refrigerator door has been accidentally left open.

Dual Ice Maker:

No need to worry about running out of ice when entertaining with Samsung's Dual Ice French Door Refrigerator. Two independently controlled ice makers—one in the fridge, one in the freezer—produce almost 2 times the ice of our single ice maker model for added convenience.

Refrigerator: 15.8 cu. ft.

French door design provides easy access to fresh food and flexible storage options.

Twin Cooling Plus System® uses two evaporators with only one compressor to independently control the temperature in the refrigerator and freezer.

Two independently controlled ice makers—one in the fridge, one in the freezer—produce almost 2 times the ice of our single ice maker model for added convenience.

EZ-Open Handle™ lifts the handle to open the freezer with no force needed.
