The smarter way to stay warm and lower your energy bills.

De'Longhi portable heaters provide safe, powerful, room heating while lowering your energy bills. By heating a single area, like your bedroom or den, you'll be able to lower your thermostat and begin saving right away. And, most important, De'Longhi's SafeHeat Technology makes them the perfect choice for family use.

1. LOWER ENERGY BILLS

By heating only the room you're in, you can lower your thermostat and lower your energy bills right from the start.

2. SAFEHEAT TECHNOLOGY

Perfect for family use, De'Longhi safety features include an automatic tip over "off" switch and thermal cutoff that prevents overheating.

3. EASY TO SET UP

Just plug them in and enjoy the warmth. Both panel and radiant models feature pre-assembled patented SmartSnap wheels for easy movement.

OTHER ADVANTAGES

- Lightweight and portable – move easily from room to room
- Virtually silent performance – allows you to watch TV or sleep
- Odor-free – no gas odor to contend with
- Non-drying – better for both your skin and sinuses

The smarter way to stay warm and lower your energy bills.

Our innovative, beautifully designed small appliances are engineered to be user-friendly while adding lasting value. De'Longhi introduced portable heaters to the U.S. Today, we're the global category leader, delivering safe, powerful, energy-saving room heating where you need it.

The De'Longhi Difference

Eco Mode: Designed to optimize energy consumption

Consistent heat: No cold or hot spots

Four portable heater options: Ceramic, radiant, panel and fan

Introducing SafeHeat Technology

De'Longhi has raised the benchmark for safe room heating with SafeHeat.

Tip-over switch: Turns itself off if tipped over

Thermal cutoff: Prevents overheating

Durable sealed construction: In radiant models, permanently sealed oil won't leak and never needs refilling

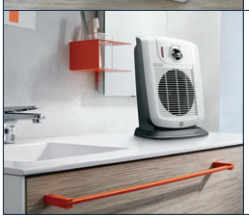

Heat only the room you're in and save on energy bills right from the start.

Select the right style heater for your needs.

	Heater Type	Suggested Use	Benefits
	**Panel Heaters** combine convection and radiant heat to circulate warm air throughout the room by means of air currents.	**Full Room Heating** • Bedroom • Living room • Apartments with limited space	• Rapid – heats up quickly • Lightweight and portable • Can be hung on wall
	**Radiant Heaters** are the most efficient and effective choice for large, frequently used living areas creating long-lasting, consistently gentle heat.	**Full Room Heating** • Family room • Living room • Great room	• Oil is permanently sealed • Never needs refilling • Consistent gentle heat, totally silent performance
	**Ceramic Heaters** are the most popular style of heater. Rotating oscillation feature extends the heating area.	**Personal Heating** • Bedroom • Office • Basement laundry room	• Several size options • Heats up quickly • Oscillation extends heating area
	**Fan Heaters** are designed for personal heat in a smaller area. Direction of heat, temperature setting and fan force are all easily controlled.	**Personal Heating** • Bedroom • Workshop • Office	• Heats up quickly • Lightweight and portable • Waterproof protection for safety
